Part 2b. Description of Payment Card Business

Describe how and in what capacity your business stores, processes, and/or transmits cardholder data.

SimplePay's solution consists of the collection and database storage of cardholder data. The cardholder data collected is sent to the PSP for payment processing.

Describe how and in what capacity your business is otherwise involved in or has the ability to impact the security of cardholder data.

SimplePay's solution uses a credit card data collection API that consists of embedding an iFrame in the payment page of the merchant. Upon submission, these fields are immediately sent to the acquirer, using the rules established by this entity. The acquirer responds with a token for the transaction. Cardholder data is simultaneously securely stored within the environment of SimplePay.

Part 2c. Locations

List types of facilities (for example, retail outlets, corporate offices, data centers, call centers, etc.) and a summary of locations included in the PCI DSS review.

Type of facility:	Number of facilities of this type	Location(s) of facility (city, country):
<i>Example: Retail outlets</i>	3	Boston, MA, USA

			<input type="checkbox"/> Yes <input type="checkbox"/> No	

Part 2e. Description of Environment

Provide a **high-level** description of the environment covered by this assessment.

For example:

- *Connections into and out of the cardholder data environment (CDE).*
- *Critical system components within the CDE, such as POS devices, databases, web servers, etc., and any other necessary payment components, as applicable.*

The covered environment encompasses:

- the development team at SimplePay
- the processes in place to support the production infrastructure residing in the Hosted environment
- the payment components consisting of the Webservers and the supporting Database servers

Does your business use network segmentation to affect the scope of your PCI DSS environment?
(Refer to "Network Segmentation" section of PCI DSS for guidance on network segmentation)

Yes
 No

Part 2f. Third-Party Service Providers

Does your company have a relationship with one or more third-party service providers (for example, gateways, payment processors, payment service providers (PSP), web-hosting companies, airline booking agents, loyalty program agents, etc.) for the purpose of the services being validated?
